Microsoft is pushing their Xbox One S a little harder than they were. In light of the Nintendo Switch launch doing so well, Microsoft is trying to sweeten their One S deal with two included games for the price of \$299. This is a pretty affordable gaming console and the total cost of ownership will be much less than a Switch. Take a look at the link below to check out all the different configurations available for the \$299 price tag.

The bundles start at \$299 and include a variety of different options like Minecraft, Forza Horizon 3, and Gears of War 4 - just to name a few. Now to make the deal even sweeter, Microsoft has offered up two free games that can be selected from a set group. As mentioned previously, you'll be able to score a free copy of Mass Effect: Andromeda or if that isn't your thing, you'll have plenty of other great titles to choose from like Halo Wars 2, Deus Ex: Mankind Divided, Final Fantasy XV, and more.
