---

If you are looking for a new cooler for your next build, but want something quiet - I mean REALLY quiet - like no moving parts, the [FanlessTech Norfan CR-95C Copper cooler](#) may be just what you're shopping for. This cooler looks pretty awesome and if it cools even 50% as good as it looks, I'd be happy.

If you want something with some moving parts, check out these other cooler reviews below.

[Be Quiet! Dark Rock Pro C1 Dual Tower CPU Cooler - eTeknix](#) ---- [Prolimatech](#)
