Acer does make some good products, but they rarely get called "Awesome". Well, with products like the Swift 7, they deserve the accolade. This is a Windows 10 machine that will set you back \$999 and comes with a full HD display, 8GB of RAM, a 256GB SSD and a full Core i5-7Y54 processor. It's under 1cm thin (0.39-inches) and boasts 9 hours of battery life in addition to Bluetooth, 802.11ac, Gorilla Glass and more.

Cutting-edge technology wrapped in the world's thinnest, ultra-light, versatile laptop design is what gives Acer's Swift 7 its distinguished sleekness and sophistication. Tailored for life-on-the-go professionals, the Swift 7 leverages powerful processing and the fastest wireless connectivity to deliver a timeless portable computing experience. Combine that with its 13.3 inch FHD IPS display, stylish aluminum chassis and an extra-long battery life, and you quickly see why this PC delivers a most memorable multimedia experience.
