Microsoft is getting ready to blow the doors off their webstore for Black Friday. They have some great Surface Pro 4 deals including up to \$430 off the solid Core i5, 8GB RAM, 256GB SSD version that will be available for \$999. If you need to save a few more bucks, the Core m3 will be a mere \$599 - without pen. Also Xbox One & One S will be discounted making Sony even more uncomfortable with their issues. It's going to be an interesting Black Friday this year as companies seem a little more eager to move hardware.

- Surface Pro 4, Core i5, 8GB RAM, 256GB storage, bundled with black Type Cover at Microsoft Stores for \$999 (\$429.99 off). Limit one per customer.
- Surface Pro 4, Core m3, 128GB storage, bundled with Signature Type Cover at Best Buy for \$599. No pen included.
- Surface Pro 4, Core i5, 128GB storage, for \$799.
- Surface Book, 128GB storage, for \$1249.
- Surface Book, Core i5, dGPU, 256GB storage, for \$1499 (normally \$1899).
